🚗 Driver License B

### SKILLS

PHP - LARAVEL - DRUPAL -  
WORDPRESS - API - GITLAB -  
DOCKER - JIRA - CONFLUENCE -  
CODEIGNITER - E-COMMERCE -  
MAILCHIMP - HUBSPOT -  
GOOGLE WORKSPACE - MYSQL -  
LINUX - MAC - APACHE - URL  
REWRITE - BOOTSTRAP -  
HTML5 & CSS - MANTIS - ASANA -  
ASSEMBLA - PYTHON - GO - AWS  
- TAILWINDCSS

### OTHERS

- **AXA Royale Belge:**  
Administrative processing  
(data entry)
- **Cerp:** Delivery driver and  
warehouse worker for  
pharmaceutical products
- **MTA:** Worker (precision  
drilling and milling)
- **Volleyball Coach:** Club coach  
since 2019

### PROFILE

Senior full-stack web developer with 20+ years of experience, specialized in Laravel, RESTful APIs, and Drupal/WordPress. Autonomous and detail-oriented, I enjoy collaborating with developers and building robust, meaningful solutions across systems. From end-to-end web apps to full ecosystems supporting software products, I'm always driven by new challenges and a passion for improving tools and workflows.

### WORK EXPERIENCE

- **InMusicBrands** (Remote) 11/2020 - 02/2026  
**Senior Web Developer**
  - Frontend Soundswitch Website Management.
  - Developed, maintained inMusic webservices with Go/Python/Docker
  - Deployed Merge Request with Gitlab / AWS / Docker
  - Worked collaboratively in an Agile/Scrum team, using story points and Jira to manage tasks.
- **ArKaos** (Waterloo / Mechelen / Remote) 03/2017 - 10/2025  
**Senior Web Developer**
  - Developed and maintained RESTful APIs and web services in Laravel for software license management, including test automation and integration testing.
  - Built and maintained web portals (frontend and backend) for customer license management and internal support, using Laravel, Drupal, and WordPress.
  - Integrated third-party services (HubSpot, payment/shipping APIs, Mailchimp) and created custom e-commerce modules to improve sales performance.
  - Maintained and deployed tools and microservices supporting software teams, including Docker-based CI pipelines, crash log analysis tools, and dashboards.
  - Provided technical support, created documentation (Confluence), managed hosting (AWS/OVH), and contributed to decision-making on frameworks and CMS platforms.
- **Easi** (Nivelles) 07/2016 - 03/2017  
**Software Engineer**
  - Collaborated on the development of a mobile banking app (My Degroof Petercam), with a strong focus on security best practices.
  - Maintained and improved iOS applications (SmartSales, Notélé), including unit testing in Xcode, CoreData, and AutoLayout.

## LANGUAGES

---

- French (Fluent)
- English (Work)
- Dutch (School level)

## INTERESTS

---

 Table tennis: (3 years)

 Volleyball: (15 years)

 **Hobbies:** Comics, cycling, and gaming during my free time

● **Uchrony, A Division of Business & Decision Benelux** (Woluwe Saint Lambert) 03/2015 - 07/2016

### Senior Web Developer / iOS Developer

- Maintained and updated iOS applications for the Carrefour group.
- Developed a mobile app (Esplanade) interacting with Bluetooth iBeacons for location-based services.
- Built proofs of concept using various beacon technologies (Estimote, Nearables, Kontakt.io, etc.).
- Developed backend features for web applications using PHP and MySQL.

● **UCHRONY S.A** (Auderghem) 12/2011 - 03/2015

### iOS Developer

- Developed and deployed iOS apps (iPhone/iPad) for Carrefour, including design integration and App Store/OTA distribution.
- Created a custom notification server in PHP for APNS integration (Carrefour CheckIn, Borne).
- Managed test deployments using internal and external TestFlight, and handled Apple provisioning and certificates.
- Integrated various iOS SDKs and CocoaPods, including the creation of a custom pod and framework.

● **UCHRONY S.A** (Auderghem) 08/2003 - 03/2015

### Web Developer

- Built custom and CMS-based websites / e-commerce platforms using Joomla, WordPress, Drupal, Prestashop.
- Developed custom modules, components, and plugins for Joomla, Drupal, Wordpress and Prestashop.
- Contributed to the design of a home made CMS built with ColdFusion, PHP.
- Developed an Intranet in Zend Framework for Patro.
- Managed databases and data migration pipelines (DTS) between staging and production environments.
- Integrated HTML5/CSS3 templates in collaboration with designers, ensuring full responsiveness and compliance with client specs.

## TRAINING

---

**TECHNOFUTUR TIC ASBL** (Gosselies) 30/11/2012  
iOS SDK Programming (5-days training)

**LR TECH S.A** (Brussels) 17/11/2003  
Advanced ColdFusion MX Development

**GLTT** (Rhode-Saint-Genèse) 2006-2007  
Evening English Course, Level 3

## EDUCATION

---

<b>HEB ESI</b> (Brussels) Bachelor's Degree in Industrial IT <i>"Specialization: Networks and Telecommunications"</i>	2000 - 2003
